Specializing in luxury home interior design, J. Design Group of Miami, Fla. has completed a new project featuring a spectacular home with beautiful contemporary aesthetics that is a perfect example of how design, nature, color, art and comfort can beautifully coexist.

J. Design Group's latest masterpiece, located in the Coconut Grove area of Miami, is a summer sanctuary that boasts layers of calming whites, natural materials and soothing botanicals combined with streamlined contemporary furniture. Its open concept makes it ideal for entertaining, with plenty of indoor and outdoor spaces where you can relax, sip cold refreshments and enjoy the company of friends. With features such as a wraparound marble kitchen peninsula, three-dimensional interlocking panels surrounding the fireplace, floor to ceiling windows, modern lighting and unique artwork, it is evident that no space was an afterthought. J. Design Group leaves an artistic imprint on every surface, in every room, creating a welcoming environment that leaves the owners feeling as if they're living in a dream vacation.
